CHORM CHAN DOUERN

(INTERN)

ABOUT ME

I'm a second-year Information Technology student at the Royal University of Phnom Penh and a beginner web developer. I have basic knowledge of HTML,CSS,JavaScript,React,Vue,Tailwind CSS, and PHP with Laravel. I have experience building simple web applications, working with CRUD operations, and connecting frontend interfaces to backend APIs. I am eager to learn, improve my skills, and gain real-world experience while contributing as a Junior Web Developer.

WORK EXPERIENCE

Etec (Solution) about POS

I 'm a front-end (Team) *10 week*

- Front-end (Vue.js): Ideal for creating the highly interactive, responsive, and real-time interface required for a POS. Its reactive data-binding ensures that when a cashier adds an item to a cart, the screen updates instantly without refreshing.

Coffee (Barista) *4 Month*

- Greeted customers, took orders accurately, and delivered great customer service.
- Prepared and served coffee beverages while maintaining cleanliness and quality standards.
- Handled cash transactions and kept the coffee station well-organized.

PROJECT

- Event Ticket Booking System
  - Laravel 12, Vue 3, PostgreSQL, REST API, Bakong, QR Code
  - Developed event booking, payment, and QR ticket check-in features.
  - Implemented role-based authentication and REST API integration.
  - Used Git/GitHub for version control and team collaboration.
- Food-order – Vue , Tailwind css , Javascript deployed on vercel and using Github for version control.
- System Student Management - Php ,CSS , Ajax ,Bootstrap , Database MySql control data on deployed Infinityfree and using github for version control.

EDUCATION

2025 - Present

- Bachelor of Information Technology (3nd Year, 1nd Semester) Royal University of Phnom Penh
- Study scholarship Back-end (php, laravel) of etec

2021 - 2024

- Graduated at Bunrani Hun sen Rolea ier High school
